### **ANTARES VISION GROUP WINS PHARMA MANUFACTURING'S INNOVATION AWARD**

*The Group was assigned the award by the US magazine for the high level of innovation of the automatic inspection solution for BFS Cards, which guarantees 100% inspection of containers*

Travagliato (Brescia), 26 September 2024 - The **Innovation Award** of the US magazine **Pharma Manufacturing**, part of **Endeavor Business Media**, was assigned for the **VRI Automatic Inspection Machine for BFS Cards** solution to **Antares Vision Group**, Italian multinational, leading provider in Track & Trace systems and quality control, which guarantee the transparency of products and supply chains through integrated data management. Each year, Pharma Manufacturing identifies the best technologies and cutting-edge services that improve product quality, reduce risks, and boost manufacturing efficiency in the pharmaceutical world.

The **VRI** automatic inspection machine **for BFS Cards** represents an innovation designed to **guarantee the highest standards of quality** through advanced automatic visual inspection that guarantees 100% inspection of containers. The machine identifies **cosmetic defects**, detects **reflective and non-reflective particles**, checks the **fill level** thanks to shortwave infrared technology and checks the **OCR/OCV cards**.

The Blow-Fill-Seal (BFS) containers are one of the most crucial packaging systems for pharmaceutical products; therefore, their inspection represents a significant challenge due to this type of packaging and to international legal standards that require each single container to be inspected.

"Pharmaceutical companies are now facing new challenges - states **Gianfranco Landolfi, the Group's General Manager Life Science** - that Antares Vision Group responds to with a complete range of Track & Trace, inspection and data management solutions. We are proud of the award we received, which testifies to our commitment in the production of innovative, effective and functional products for the pharmaceutical market".

#### **ANTARES VISION**

Antares Vision Group is an Italian multinational, listed on the STAR segment of Euronext and included in the Tech Leaders index, dedicated to companies with high growth potential. It enables the digitalization of products and supply chains through traceability, inspection for quality control and integrated data management. Through DIAMIND, the integrated ecosystem of solutions, the Group supports companies and institutions in ensuring safety, quality, efficiency and sustainability of products and end-to-end traceability across the supply chain, with integrated data management, boosted by artificial intelligence and blockchains. It operates in the Life Science and in FMCG sectors. It is the world leader in T&T systems for pharma products, supplying major global manufacturers and numerous government authorities. It recorded a turnover of €214M in 2023, operates in 60 countries, employs over 1,200 people, and boasts a network of over 40 international partners.
